The Georgia Legislature, by an almost unanimous vote, declares for the free and unlimited coinage of silver and demands of the administration the fulfillment of the financial pledges of the Democratic platform. Ex-Congressman Tom Watson is agitating the silver question in the State and is making it uncomfortably warm for the gold bugs at the home of Secretary Hoke Smith.

Arrested for Vagrancy.

Four men, Jack Rutledge, Bert Gaffo, Joseph Winters, and Henry Jenkins (colored) were arrested for vagrancy for living off the earnings of fallen women and had an examination before Justice Linn who held them in \$50 bail, in default of which they were committed to the county jail.—Journal.

Shot by a Policeman.

Chicago, Ill., December 27.—Thomas Moran and Michael Haley, policeman, are under arrest pending an investigation into the killing of Samuel Nelson. Early yesterday morning Haley and Moran were standing in front of a saloon at 3217 Michigan avenue, when Nelson invited them inside and they accepted a cigar each, for which Nelson paid. The policeman then went to make their hourly report, and then going back to the saloon they found that the proprietor had thrown Nelson out of the place.

Nelson was drunk and disorderly at the time and struck Policeman Haley, knocking him down. Moran at once arrested Nelson. By this time Haley had gained his feet and they proceeded with Nelson toward the police signal box. Nelson dropped to the ground and refused to go any further. The rumbling of the patrol wagon was heard and Nelson tried to escape, but was shot in the back and died shortly afterwards. He kept a cigar store.

A Steer For a Quarter.

Geo. Cowing, Captain of the Carson Guard shooting team, having expressed a desire to kill another bull, Jim Wiggins has decided to give him another chance on Dec. 31st, and Jan. 1st. He has enlarged the bullseye, and reduced the price to 25 cents a shot. The winner gets \$15 or the steer.

There will also be a turkey and chicken shoot.

Turkeys—200 yards, at 25 cents per shot, and 75 yards with pea rifle, 25 cents per shot.

Chickens—45 yards with shot guns 25 cents per shot.

The same rules will govern the shoot as at the Christmas. Nobody barred and everybody invited.

On the night of Jan. 1st there will be a dance with first class music at Wiggins' Hall.

Mitchell Goes South.

Philadelphia, Pa., December 27.—Mitchell, accompanied by Harry Darrin and Jack Fogarty, left Road-street station, Pennsylvania railroad, this morning. A large crowd witnessed his departure and cheered as the train drew out. The party will reach Charleston to-morrow.

Mitchell, when asked his chances of winning, said: "I will give Corbett a good run for the money, and if he whips me he will know he has been in a fight. I would like to wager some money against that which the Corbett people say they will offer at odds of 2 to 1 and 3 to 1, but cannot find any of it."

Nevada Hay.

The Salt Lake Tribune says that it is almost laughable to read that the highest average for hay in the United States is in Nevada, and next to that is Florida. Nevada raises 2.66 tons per acre, and Florida exactly two tons. That probably, had better be explained. The hay spoken of in Nevada is lucerne in great part, and three crops are cut annually from the same land. Lucerne does not grow successfully in the East, in the North because of the cold winters, and in the South mostly because the soil is clay and the winter water kills it.

A Yacht Challenge.

London, Dec. 27.—The Times announces that Admiral Victor Montague, who had the Viola, the Cosiar and Vendetta built, will have a new forty-rater next season.

It will be designed by Watson and built on the Clyde. Admiral Montague says he is open to a race of the center against any new forty-rater designed by an American designer for a substantial stake, the best of three matches, under the rules of the British Yacht Racing Association.

E. S. Pomery, a pioneer and an old miner, committed suicide in San Jose Monday. He took poison. He was a native of New York, aged 65 years. He was well-to-do at one time, but lost his fortune in mining speculations. He was recently discharged from a mental position in a San Jose hotel and this caused him to end his life.

Last Saturday night three highwaymen held up a Southern Pacific train near Burbank. They blew open the express car with dynamite. Very little cash was taken, as the safe was locked and could not be opened by the messenger. The robbers were tracked into Los Angeles, but there all traces of them were lost. A large reward has been offered for their capture by Wells, Fargo & Co., and the railroad company.

The second edition of the December World's Fair Cosmopolitan brings the total up to the extraordinary figure of 400,000 copies, an unprecedented result in the history of magazines. Four hundred thousand copies—200 tons—ninety-four million pages—enough to fill 200 wagons of 2000 pounds each—in a single line, in close order, this would be a file of wagons more than a mile and a half long. This means not less than 2,000,000 readers, scattered throughout every town and village in the United States. The course of the Cosmopolitan for the past twelve months may be compared to that of a rolling snow-ball; more subscribers mean more money spent in buying the best articles and best illustrations in the world; better illustrations and better articles mean more subscribers and so the two things are acting and reacting upon each other until it seems probable that the day is not far distant when the magazine publisher will not be able to give so excellent an article that it will claim the attention of every intelligent reader in the country.
